Module 1 Overview and Learning Outcomes

Module Title: *What Is AI and Why Does It Matter?*

Overview

What Are We Learning and Why?
This module introduces Artificial Intelligence (AI) to students from non-technical backgrounds.

In this module you will:

- Understand what AI really is (not just robots from movies!)
- Explore the difference between pop culture AI and real-world AI
- Learn how AI is already part of your daily life (even if you don't realize it)
- Reflect on ethical concerns and the impact of AI on society

Module Learning Outcomes

By the end of this module, you will be able to:

- Define Artificial Intelligence (AI) in simple terms
- Compare popular media images of AI (movies, news) to real-life AI applications
- Identify examples of AI in your everyday life
- Discuss the ethical questions AI raises in society
