Module 1: Discussion Board 2 _ "AI Ethics for Everyone"

Total points: 20

Hello class,

This discussion is your chance to think about the ethical side of Artificial Intelligence (AI) and how it impacts everyday life and big decisions. It's okay if you're still learning — the goal is to explore your opinion and practice critical thinking.

Instructions:

Step 1 – Create Your Post (by [Insert Due Date])

Write a post (at least **150 words**) where you:

- Answer this question:
  Do you think AI should be allowed to influence major life decisions, like loan approvals, job hiring, or criminal justice (e.g., predictive policing)? Why or why not?
- Use your own experiences, values, or examples from current events or the course to support your opinion.
- Think about topics like fairness, bias, discrimination, or privacy.

Step 2 – Reply to Classmates (by [Insert Reply Due Date])

Respond to **at least two classmates** with thoughtful, respectful replies:

- Agree or disagree — but explain why.
- Ask a question that encourages deeper thinking.
- Share a related example or ethical concern.

Replies should be **at least 3–4 sentences long**.

Tips for Success:

- There are no wrong answers — just thoughtful ones!
- Focus on explaining your opinion clearly.
- Be respectful of different points of view.

This discussion follows a rubric.

Rubric

Total: 20 points

Criterion	Performance levels	Score
Position and reasoning Maximum 5 points	**Exceeds expectations (5):** States a clear position and explains it with thoughtful, well-connected reasoning. **Meets expectations (4):** States a position and gives a relevant explanation. **Developing (2-3):** Position or explanation is present but underdeveloped. **Incomplete (0-1):** Position is missing, unclear, or unsupported.	____ / 5
Ethical concepts and support Maximum 5 points	**Exceeds expectations (5):** Uses relevant examples and meaningfully addresses fairness, bias, discrimination, privacy, or a related concern. **Meets expectations (4):** Connects the position to at least one relevant ethical concern or example. **Developing (2-3):** Mentions an ethical concern but provides limited connection or support. **Incomplete (0-1):** Does not address an ethical concern or supporting example.	____ / 5
Replies to classmates Maximum 5 points	**Exceeds expectations (5):** Provides two thoughtful 3-4 sentence replies that respectfully deepen the discussion. **Meets expectations (4):** Provides two relevant and respectful replies. **Developing (2-3):** Provides one substantive reply or two very brief replies. **Incomplete (0-1):** Replies are missing or do not engage with classmates' ideas.	____ / 5
Requirements, clarity, and respect Maximum 5 points	**Exceeds expectations (5):** Meets the 150-word requirement and communicates clearly while respecting different points of view. **Meets expectations (4):** Meets the main requirements and is clear and respectful. **Developing (2-3):** Misses one requirement or contains clarity problems. **Incomplete (0-1):** Does not meet the required length or respectful participation expectations.	____ / 5
