Module 1: Discussion Board 1 _ "AI in Pop Culture vs Real Life"

Total points: 20

Hello class:

This discussion gives you a chance to think about how Artificial Intelligence (AI) is often portrayed in movies, books, or shows — and how it compares to real AI technologies we use in our daily lives. Let’s have fun exploring the difference between Hollywood fiction and real-world function!

Instructions

Step 1 – Create Your Post (by [Insert Due Date])

Write a post (minimum **150–200 words**) where you:

- Describe one example of AI from a **movie, book, or TV show**
  (Examples: *The Matrix*, *Iron Man*, *Her*, *Big Hero 6*, *Black Mirror*)
- Describe one example of **real AI** you've seen or used
  (Examples: Siri, Google Maps, Spotify recommendations, ChatGPT)
- **Compare the two**:
  - How are they similar or different?
  - Is the pop culture version realistic or exaggerated? Why?

Step 2 – Reply to Classmates (by [Insert Reply Due Date])

Respond to at least **two classmates** with thoughtful comments (3–4 sentences each). You can:

- Share a similar movie or tech example
- Ask if they think their pop culture AI could exist someday
- Suggest another real-life comparison

Tips for Success:

- Use your own words — no technical knowledge required!
- Keep the tone respectful and curious.
- Don’t stress about being "right" — just think critically and have fun!

This discussion follows a rubric!

Rubric

Total: 20 points

Criterion	Performance levels	Score
Pop culture AI example Maximum 5 points	**Exceeds expectations (5):** Clearly describes a specific AI example from a movie, book, or television show. **Meets expectations (4):** Describes a relevant pop culture AI example. **Developing (2-3):** Names an example but provides limited description. **Incomplete (0-1):** Example is missing or unrelated.	____ / 5
Real-world comparison and analysis Maximum 5 points	**Exceeds expectations (5):** Clearly compares the fictional and real examples and explains whether the fictional version is realistic or exaggerated. **Meets expectations (4):** Provides an accurate comparison and a supported conclusion. **Developing (2-3):** Provides a partial comparison with limited explanation. **Incomplete (0-1):** Comparison or analysis is missing or inaccurate.	____ / 5
Replies to classmates Maximum 5 points	**Exceeds expectations (5):** Provides two thoughtful 3-4 sentence replies that extend the discussion. **Meets expectations (4):** Provides two relevant and respectful replies. **Developing (2-3):** Provides one substantive reply or two very brief replies. **Incomplete (0-1):** Replies are missing or do not engage with classmates' ideas.	____ / 5
Requirements, clarity, and tone Maximum 5 points	**Exceeds expectations (5):** Meets the 150-200 word requirement and communicates clearly in a respectful, curious tone. **Meets expectations (4):** Meets the main requirements and is clear and respectful. **Developing (2-3):** Misses one requirement or contains clarity problems. **Incomplete (0-1):** Does not meet the required length or participation expectations.	____ / 5
