Discussion 03: Ethics in AI

GRADING RUBRIC | 30 POINTS POSSIBLE | 3 CRITERIA (10 PTS EACH)

01 Original Post / 10 points

You clearly shared your opinion on whether AI should make life-or-death decisions. You supported your view with a specific, relevant example and met the word count.

RATING	PERFORMANCE LEVEL	DESCRIPTION	POINTS
3	**Excellent**	Clearly answers the question with a strong opinion and a relevant, specific example; meets word count	10 pts
2	**Satisfactory**	Answers the question and provides some support; may lack detail or full word count	6 pts
1	**Needs Improvement**	Incomplete, unclear, or lacks reasoning/example	3 pts
0	**No Marks**	No post	0 pts

02 Ethical Reasoning / 10 points

You thoughtfully considered multiple ethical issues or dilemmas, such as fairness, bias, accountability, transparency, or human oversight. Your post shows that you're thinking critically about both the challenges and responsibilities that come with using AI in serious situations.

RATING	PERFORMANCE LEVEL	DESCRIPTION	POINTS
3	**Excellent**	Thoughtfully considers multiple ethical concerns or dilemmas	10 pts
2	**Satisfactory**	Mentions at least one ethical point	6 pts
1	**Needs Improvement**	Little or no ethical discussion	3 pts
0	**No Marks**	No post	0 pts

03 Peer Replies / 10 points

You replied to at least two classmates with respectful, meaningful comments. You added to the conversation by asking thoughtful questions, offering a new viewpoint, or building on their ideas.

RATING	PERFORMANCE LEVEL	DESCRIPTION	POINTS
3	**Excellent**	Two or more respectful, meaningful replies that add value to the conversation	10 pts
2	**Satisfactory**	One adequate reply or two brief responses	6 pts
1	**Needs Improvement**	No replies or minimal engagement	3 pts
0	**No Marks**	No post	0 pts
